

Our client search 1 consultant; Micro Focus Enterprise Server Expert on Windows

Context of the mission / Objective(s) of the job; executing a major IT transformation program where business applications hosted on Mainframe will be migrated to a Windows solution stack with Micro Focus products for the development maintenance and execution of the migrated applications. The program is estimated to deliver in 2022. To support this transformation program we are looking for a Micro Focus Enterprise Suite expert (Server & Developer).

Expected Start date: ASAP Duration: At least until June 2022 (with a trial period) (Depending on project evolution, extension is possible). Contract or Freelance.

Objective of the job

You will be responsible for the Micro Focus Enterprise Server solution to support the transformation program. Main activities / responsibilities:

- You understand and challenge the MFES implementation as proposed by the provider from the architecture to the detail design and implementation.
- You review and comment the technical documentation
- You deploy the solution on the platform and prepare the handover to operational team.
- You fully support the run of the platform in project mode and you ensure the availability.
- You deploy across environments the update e-packages delivered by the Replat forming provider and you propose automation where possible.
- You are responsible for Life Cycle Management (definition, management and execution) of MFES and satellite components.
- You share your MFES expertise with the team
- You contribute in the training of Cobol developers for what specifically concerns the MFED platform (training documentation, training sessions, ...)
- You document the solutions implemented
- You ensure we meet operational requirements :
 - o You ensure the availability runtime environment
 - o You determine, document and handover operational procedures
 - o You intervene in problem solving
 - o You define and support the ITIL processes.

Perfect language knowledge of French, Dutch and English. German is a must!

You work in Brussels Centre and you hold a master diploma in IT/Actuary/Engineering

You have more than 10 years experiences
